

#GDSC5
CODE FOR
A CURE

Capgemini hereby recognizes

*Shubham Rohatgi, Shreyas Khachane,
Srinivasa Raghu Vamsee Banda, Shreyash Kalal*

for participating in the [Global Data Science Challenge 2022](#) and learning how to design and implement object detections models in AWS.

The goal of the challenge was to create an algorithm that detects worm sections in microscopic nodule images.

In total, 861 participants competed in 399 teams.
